Objective

Detail-oriented and creative video editor with hands-on freelance experience editing technical and educational content. Adept at turning complex topics like programming, AI tools, and automation into engaging, easy-to-understand video stories. Seeking to contribute storytelling and motion design skills to a forward-thinking tech-focused media team.

Skills

- Video editing for technical tutorials, screen recordings, and faceless videos
- Proficient in DaVinci Resolve, Final Cut Pro, and Adobe After Effects (adapts quickly to Premiere Pro)
- Skilled in motion graphics, text overlays, transitions, and visual storytelling
- Clear understanding of AI tools, automation, and programming terminology
- Strong pacing and clarity for explaining complex technical content
- Experience creating voice-over based and script-driven content
- Strong attention to detail, feedback-oriented, and deadline-driven

Experience

Freelance Video Editor

Self-employed | Remote | June 2025 – Present

- Edited and produced tech content for YouTube channel @neuralfactswithai
- Designed faceless videos combining screen recordings, motion text, and transitions
- Simplified complex technical subjects like AI and automation using engaging visuals
- Added subtitles, graphics, and pacing improvements to enhance clarity
- Managed end-to-end video production workflow and content calendar
